

# Hiyos Student Ambassadors

## What is a Hiyos Student Ambassador?

We rolled out an engaging and interactive webinar programme for students, tapping into the trends and themes that they felt were important. Hiyos Student Ambassadors (HSAs) are students who engage with their school community and give us feedback on which topics they want! To select our HSAs we ran an essay writing competition.

## Meet Nesilla...

I was extremely excited when I found out that my essay for HIYOS ambassadors was selected. I found out about it through my school and thought it was a great opportunity to grab. Over the weeks, I experienced a lot of things such as learning and completing tasks in different departments such as Creative Learning, Communications and got to explore the difficulties and how we can handle them. As it is said, "You never change your life until you step out of your comfort zone; change begins at the end of your comfort zone."

This work experience has helped me build up my confidence and leadership skills among a group of people. It was also great to work together with another ambassador from my school. We had different ideas to conduct surveys for the topics the students were interested in. The GP members also delivered amazing sessions which were really helpful for students from Yr 10,11 and 12. Thank you so much to the GP members for their support and advice during the weeks was greatly appreciated!

## ...and Anicia

I am the ambassador of the HIYOS (Health in your own skin) from Kingsley Academy. I was selected by the local GP. I really enjoyed this work experience. It helped me improve my communication skills and take responsibility. For this work experience I was asked to come up with ideas/ topics for the webinars and involve all the other students (year 10, year 11 and year 12) and from my school. So I did surveys involving all the other year group students. These ideas/topics were then shared with the local GP and then we had to book a day for the GP members to deliver the sessions on the webinars to the other year groups, specially for year 10,11 and year 12s.
